Action Taken Report for the Grievance Redressal Cell for the year Nov' 2022 to Oct'2023

As per the feedback from the students and faculty and as a follow up of the grievance cell meeting the following activities are initiated and accomplished during 2022-2023.

- i. Hands-on training in new software such as Rhino and Revit through professional lectures and workshops were organized.
- ii. Collaborative studios with Ethos Hunnarshala Foundation, with emphasis on earth-based construction, Bamboo Workshops, brick construction, and other events are organized specifically to address sustainable issues among students during 2023.
- iii. A student council body is formulated with elected representatives for the career development schemes.
- iv. Buses for students are arranged in new routes and a special bus from the hostel is being proposed and there by this issue related to bus is addressed.
- v. Next point of concern is the computer lab, which has been upgraded with 50 new systems with i7 processors during 2023. Softwares -Autodesk, Revit and MS office has been installed in the new systems that were purchased. Thus, the feedback of concern related to the better equipped labs was addressed.
- vi. Library has procured 99 reference and text books, 11 national journals, 7 international journals and 92 E- journals are subscribed during the year 2023. Thereby the major concern in the students' feedback is addressed.
- vii. Regular study visits are undertaken for the students for various subjects. Study visits suspended during pandemic is reversed during 2022-2023 and is no longer a significant issue of concern after 2023.
- viii. Teaching faculty are advised to include practical orientation while teaching theory subjects as well as to take regular study visits.
