## ACADEMIC POLICY

MSAJAA offers B.Arch and M.Arch Conservation Programmes. It endeavours providing learning through collaborative design studios with top institutions of the country. The institute builds industry-ready architects by bridging the gap between academics and industry through interactive sessions with top architects & domain experts, national and international. It opens up many opportunities to creatively empower students in designing built environments that are cleaner, greener, and sustainable.

### Goals of the Institution:

- Facilitate self-directed learning through a well-structured pedagogy.
- Focus on skill refinement and technical proficiency in architectural education.
- Develop student-centred teaching learning process.
- Adopt emerging technologies for design exploration in the academy and beyond.
- Interact with industry experts for the skills/issues in demand.
- Ensure holistic development of students by extra and co-curricular activities.
- Focus on imparting skills for employability and entrepreneurship.
- Respond to the need of the society and built environment as an Architect.
- Equipping future readiness among students.

### Action Plan:

- Enhance Institutional and Industrial Collaborations.
- Promoting student-centric experiential learning practices through frequent case study programs, site visits, travel, workshops, seminars, think tanks, crits and panels.
- Encouraging the students to participate in live and real-scale competition projects to enhance their competence and skills.
- Skill development initiatives for faculty through frequent quality improvement and faculty development programs.
- Promoting overall student development through various student clubs to nurture the co-curricular and extra-curricular talents of the students.
- Providing student internships, career guidance, placements, and entrepreneurship mentoring for the students.
