Understand students strength and weakness

Explanation should be given with examples and application

Case study trip

More Experimental way of teaching and letting students know and understand what is to be taught will be more efficient.

Can Have a practical sessions more instead of theory

Could be little slow in some subjects as this our first time learning that subject

Students could be taken to more no. of visits to places corresponding to the semester, to get more ideas about the places they've to design in the semester

Including more live case studies

More practical classes required to have hands on experience

To have skill development workshops in regular basis

More interactive sessions

1. Classes can be more interactive and illustrative

More Reference and study materials can be shared.

Open reviews within the class

They could take us out so that we can get exposure.

Conduct more workshops to gain knowledge in digital platforms.

Can provide more notes and reference materials

it can be more of experimental

Updated syllabus with more interactive sessions

Design staff were helpful

Give

Need more resource materials

IV trip

They can give training for employability skills

interactive activities such as group discussions

Hmm. This form is generic. Different faculties handle things differently. Unable to rate all the faculties together

Less Submissions

Expecting more Hands on workshops

please teach everyone equal, don't be partial

More practical learning - which can explain the concepts more

More interaction sessions

Better Infrastructure

Note the performance of the each students

can do better the existing stand

More workshops can be conducted

Information could be much more clear

We would like to have proper notes beforehand

With respect to teaching & learning we would need good reference, in terms with design ideas

Teaching with many examples and tools

Teachers should identify our weakness and should help

Can improve the teaching by using ppt or something

Need to give more time for theory subjects

In addition to theoretical learning, it's important to emphasize practical experience as well.

Foster collaborative learning

can improve learning environment

Maybe a complete details of what we should do

Nothing

Could be more conceptual.

To identify the weakness ,

Good

Teacher can teach lot more technical rather than teaching within the class
to make engage in extracurricular activities

Can improve sports in curriculum

Teaching methodology to be improvised. Few theory subjects are not taught completely and
notes are also not provided.

connectivity towards students

Can discuss more on outcomes after the end of the course

Teacher observe student or help under the weakness of the students

To help us develop and understand stuff where we are weak

Site visits and case studies and trips to expos and architectural shows conducted by the college

The institute can enable us to perform better in thesis by enabling teachers to discuss with us
and guide us about our projects throughout the semester in an encouraging and comfortable
environment.

Assistant professor with little more experience can be improved

can be more research oriented

Inter college events such as symposiums would be a great learning platform and interaction with
students and faculty of many colleges.

Teachers encouraged and helped me throughout the learning process and whenever I had
difficulties.

Usage of modern technologies can be more effective

If improved it would be excellent

More of site or case study visit can be arranged

Class can happen in smart class room

Notes needed

Workshop

Weekly each day for each subjects submission, not all on same day will help students to finish them on time

To visit more case study

Give the same importance and explain the seriousness to all subjects

Industrial visit

more field trips and workshops. we had only one workshop through out these 3 yrs

Practical workshop to be conducted

Site visit

Guest lectures

improve teaching

Practical learning

None

Encouraging more hands-on, project-based, and interactive learning -though some students show less interest in it

To teach is more practically

Understand students strength and weakness

Try to make students work more fast

Explanation to be given with examples and application application

Not giving importance to sports, health and fitness

study tour

Assignments can be an opportunity for students to learn instead of it being only for internal marks, so assigning a student with writing an assessment of questions is less effective and has no meaning.

Can have a brainstorming session 2 weeks once to give them motivation

Some teachers could communicate better

Interactive session within the students introspecting each other's projects to share and coerce ideas.

More field visits

More field trips

Increase a variety of teaching methods like interesting workshops, critiques, and site visits.

Good Level of teaching

2. Time management can be taught better.

Each subject's submission can be assigned a day.

Giving time to students for understanding the assignment and proceedings with the submission

Inclusion of physically engaging activities such as yoga, exercise etc twice a week

Practical workshops could be organised in college so that we can improve our skills.

Conducting Inter college cultural

outdoor classrooms must be encouraged

More workshops and lectures for all the academic year students

More workshops and field trip could be arranged

Need time for submission, balancing all the other subjects

Assignment marking

Can give more importance to internships and field visits

Create a classroom good atmosphere

Most faculties seem to be caught up with some other work. But yes, the portions are being covered.

Extension Of Deadlines

student exchange programs

don't make students life miserable

Discussion of various construction methods

Case studies

Proper electricity

Contain more workshops to learn about the course

Site visit for theory subjects

More workshops can be conducted

We would like to have practical learning for the respective subjects

Improvising in other platform areas NASA and various competition

Time

Want to teach some software program

Give us your internal marks update then and there

Internal mark valuation is not proper

We are currently lacking in practical exposure, and participating in real-time projects as part of our studio work would be very beneficial for our learning

Engaging Learning Environment

more site studies and field visits

Good teaching

Nothing

Explaining with diagrams and examples

To improve communication

Information regarding review dates and examination dates to be informed prior, so that students can plan to finish their work and prepare accordingly.

Practical class

Guide for different streams after bachelor's

Some class activity needed for students can get over introvertness.

Can have more interactive and fun sections and practical experience

Workshops and lectures that provide the real world scenario

Teachers can inculcate soft skills, life skills and employability skills to make us ready for the world of work throughout all semesters rather than when the subject of professional ethics pops out in one semester alone.

Theory classes can be thought more

hands on activities

upskilling of students by teaching the softwares required in the industry

They were extremely approachable as well

Teachers can help us to involve in extra curricular

Infrastructure addition can be done

Notes can be sent

Workshops needed

Architect speech

Practical knowledge

Overall it's good to learn

Architects speech

have guest lectures more often. i often find them inspiring and informational

Construction site visit should be taken to get a practical knowledge

Notes

Workshop

Improve teaching

To give notes for every class

Expand parking area

Understand students' strengths and weaknesses. Adequate time interval between submissions
site visit

Let's agree that on the whole, the students with/without potential aren't volunteering or involving themselves in academics, trying to shine as unique students or complete the works that the staff are assigning. But, this can't be the reason for any teachers to not find a way to make the students work or be efficient. This topic is always subjective, but a teacher can always find a way to keep the class more effective and interesting. (Be it that the students also have the potential to do so and aren't doing but) The functioning and experience of a teacher is always high and with more perspectives.

Can introduce more workshops in very aspect to improve our skills

Discussion of assignment

Outdoor activities to improve the physical health

Innovative teaching methods

Few subjects require more class hours

Strengthen internship programs, partnerships with firms and workshops on portfolio building.

Satisfactory level experience

3. Guidance for higher studies and internships can be provided.

More practical approach for theory subjects

More competitions within the college

Providing notes and explaining clearly

can improve teaching via live examples

Outdoor spaces for interactive sessions

It will be more helpful if there are 2 design submission schedules in a week so it'll be easy to work on progress

Good events

Can give us a guide on how to pursue architecture

students feel safe to express their ideas and questions.

Less assignments

Interactive panel discussion with architects apart from external review

please dont target students and get failed

Understanding drawing should also be explained with site visit, so that method of construction is clear and drawing could be even be described better

Teacher student transparency in marking and evaluation

Teach how to work in subject which is related to the design

A proper place for projection in classrooms

Hands on experience

Institution can organize symposium and other events where they can interact with large group of peers

Study materials

Bmc sub should teach in practical manner

That's it

I would also like to request that summer internships be made mandatory.

improving students ability by teaching more about design knowledge than conceptual learning

Good teaching

Nothing

More in a practical way
